The tax records cover the years (1871) 1879-1918 (1919). The numbers in parentheses^H indicate the earliest and latest dates, the center figures show the bulk of the documents.

"Returns" indicate the report of the Collector to the County Clerk of unpaid taxes. They are filed by year under the name of the town or township.

"Discharge" indicates the payment of arrears. They are filed by year of the return, following the return of that year, not by the date of payment.

Where there are two dates, e.g., 1890-1891, they are filed under the first date.

Although the reports are supposed to be sent to the County Clerk for the previous year, some of the reports contain discharges for the following year, e.g., reports for 1890 contain discharges for January or February of 1891. These are dated thus: 1890-1891, though the bulk of the discharges are in the earlier year. Check both years.

Some reports are marked, e.g., 1911, but filed February, 1911. Check both years.

Where discharges cover more than one year, look for the earliest year.

Note that the Town of Clinton, and Clinton Township are two separate jurisdictions.

In some years discharges are missing, in some the returns are missing.
